Re: *Notice of Ex Parte Meeting of*
Shure Incorporated

WT Docket Nos. 08-166 and 08-167 Low Power Auxiliary Services in the
700 MHz Band

Dear Ms. Dortch:

Pursuant to Section 1.1206 of the Commission's Rules, this letter reports that on December 5, 2008, Mark Brunner, Senior Director Global Public Relations of Shure Incorporated, and the undersigned as outside counsel to Shure met with Chris Moore, Bill Stafford, Paul Murray, Paul D'Ari, Monica DeLong, Nese Guendelsberger, and Brenda Boykin of the Wireless Telecommunications Bureau.

During the meeting, Shure reiterated its position as set forth in its Comments and Reply Comments in this proceeding, including, in particular, the need for a reasonable 24-month transition period if the Commission rules that low power auxiliary devices, such as wireless microphone systems, should no longer operate in the 700 MHz band even on a secondary basis. We also urged the Commission to be careful not to prohibit the manufacture of 700 MHz wireless microphone systems that are manufactured for export given that many other countries permit or require wireless microphone equipment to use 700 MHz frequencies and in light of Section 302(c) of the Communications Act, as amended, which expressly limits the ability of the Commission to regulate equipment manufactured solely for export. We also discussed Shure's ongoing voluntary efforts to assist its wireless microphone customers in transitioning wireless microphone use out of the 700 MHz band to other spectrum.
